

SMART INVESTORS NOT ONLY SAVE TAX BUT MORE

Did you know that you can plan for your retirement and save Taxes at the same time? By making smart and timely investments, you can not only save Tax but also invest in your long-term financial goals.

Here's the story of Suresh!

Suresh was investing in Equity-Linked Savings Scheme (ELSS). He started his monthly Systematic Investment Plan (SIP) of ₹12,500 when he was 25. He was investing this amount to save Tax. At the age of 50, Suresh might have a corpus worth 2.13 crore* at assumed rate of 12%. He's now planning to retire at the age of 50 and fulfil his passion goals. By just doing a Monthly SIP in ELSS to save Taxes, you can build a strong retirement corpus.

It only happens with ELSS!

There are many more benefits of investing in Tax-saving Mutual Funds. These benefits are not available in other Tax-saving instruments. Here's a comparison of ELSS with other Tax-saving instruments:
