

DID YOU KNOW

A DELAY OF 15 YEARS CAN SET YOU BACK BY LAKHS!

A lot can change over 15 years.
Take an example of the last 15 years

Many small companies expanded all over the country and abroad.

Investment behaviours changed. An RBI report suggests people invest more in financial assets these days than earlier.

Gold prices rose and then started to stumble.

Interest rates rose to a peak of 9-10% and are now falling to sub 7% levels

Lesson: A delay in investments by 5-15 years can cost you a lot of money.

Here's how richer you would be today if you had invested ₹ 10,000 in 2002:

Sensex	Gold	PPF	FDs
17.5%	11.8%	7.1%	7.4%
₹ 1,12,349	₹ 53,288	₹ 27,980	₹ 29,179
